

## **MENS SINGLES**

### **Round Robin Team Event**

You can find on the board and on website the first 2 rounds of the team event.

The matches should be played as they were during the first 3 rounds.

Play the full 3 sets so final score can be 3-0 or 2-1.

We have rated the players based on the first 3 rounds that have been played .You play the person in the box beside you as they are at the same level.

There are no designated captains for the teams but anyone can take that role on if they wish.

We are hoping to have more matches played as you are playing for a team.

If a walkover has to be given the score will be entered as 3 4/0 sets. We have put the first 2 rounds out together.

They are to be completed by March 2<sup>nd</sup>.

You can play round 2 before round 1 if it suits.

The games that each player wins will be added to their individual total after the first 3 rounds to determine the most successful player of the round robins
